Рекомендации для вышивальщиц

По умолчанию дизайны проектируются для вышивания на канве Aida линейного размера 14 крестиков на дюйм в палитре ниток DMC, прядь мулине в 2 сложения. Соответственно в таблице указан размер вышивки для этого случая. Если вы применяете канву другого размера или ровнотканое полотно, пересчитать размер вышивки можно следующим образом. Чтобы проверить номер ткани, наложите линейку на полотно и с помощью иглы посчитайте количество нитей или квадратиков на отрезке 2,5 см. Размер вышивки в крестиках разделите на посчитанное число и умножьте на 2,5 – это будет размер в сантиметрах.

Пример: Ширина вашей вышивки 360 крестиков, вы хотите использовать канву №18. Тогда 360 : 18 x 2,5 = 50 см, т. е. ширина готовой вышивки будет 50 см.

В случае изменения канвы может потребоваться изменение количества нитей в пряди мулине. Вышейте несколько крестиков по краю полотна и посмотрите, какое количество нитей предпочтительнее.

Не желательно изменять палитру нитей на другую с помощью таблиц или путём подбора – результат может крайне разочаровать вас.

***Фотостежок** – ваши работы будут выглядеть как настоящие картины!*
